This meeting will screen potential applicant eligibility for an infrastructure loan. Once UIPA staff determines the applicant is eligible, they will send application information via email.

The application will need to be completed in full and the required documents submitted to the Authority. There is an application review process that will be conducted by UIPA staff that may include but not limited to:

- Applicant interviews;
- Technical/financial analysis;
- Collateral analysis;
- Credit reports and credit checks; and
- Document verification and analysis

IX. Loan Criteria

 - Ability to scale or replication to drive additional financing to market
- Public impacts/benefits:
 - Cost savings

 - Public infrastructure & logistics improvements
 - Environment impact & sustainability

The total evaluation matrix will be used by the Authority's Loan Approval Committee to rank loan applications based on an applicant's credit history, ability to repay the loan, management ability, business experience, community impacts of the business, and fiscal impacts of the loan relating to job creation and retention, leverage of public to private funds, and the collateral requirements enumerated above.

Existing businesses may also be evaluated in terms of any crime issues relating to the business. Based on a Police Department report, a loan may be denied to any business that has crime issues which the local city or county the project is located in, or outstanding issues with the state that the state is not satisfied with the business's plan of resolution.

Lender Participation

The Authority encourages participation of private lending institutions and looks favorably at providing funds to fill the gap between the owner's equity and conventional financing. The Authority may subordinate its security interest to the private lender.
