I. INTRODUCTION

A. Purpose and Intent.

The District is a subsidiary of UIPA, and it is intended that the District will provide a part or all of the Public Improvements for the use and benefit of all inhabitants (though none are anticipated), businesses, and taxpayers of the District and the project area of UIPA (the “Project Area”) and to operate and maintain all or a portion of the Public Improvements. The primary purpose of the District will be to finance the construction and operation and maintenance of these Public Improvements.

B. Need for the District.

There are currently no other governmental entities located in the immediate vicinity of the District that consider it desirable, feasible or practical to undertake the planning, design, acquisition, construction installation, relocation, redevelopment, and financing of the Public Improvements needed for the Project or to provide for the operation and maintenance of the Public Improvements. Formation of the District is therefore necessary in order for the Public Improvements required for the Project to be provided and to be operated and maintained in the most economic manner possible.

C. Objective of UIPA Regarding District’s Governing Document.

UIPA’s objective in approving the Governing Document for the District is to authorize the District to provide for the planning, design, acquisition, construction, installation, relocation and redevelopment of the Public Improvements from the proceeds of Debt to be issued by the District and to allow the District to operate and maintain the Public Improvements by charging Fees, Assessments or taxes. All Debt is expected to be repaid by tax differential, taxes imposed and collected, and/or repaid by Assessments. All operation and maintenance relating to the Public Improvements is expected to be paid from Fees, Assessments, or taxes paid by property owners and other users. It is the intent of UIPA that the District will continue to charge or levy, as applicable, Fees, Assessments, and taxes and to operate and maintain the Public Improvements after payment or defeasance of all Debt incurred.

The primary purpose is to provide for the Public Improvements associated with development and regional needs and for the provision of operation and maintenance of the Public Improvements.

The District shall be authorized to finance the Public Improvements that can be funded from Debt to be repaid from Assessments or from tax revenues collected from a mill levy which shall not exceed the Maximum Debt Mill Levy on taxable properties, and which shall not exceed the Maximum Debt Mill Levy Imposition Term on taxable properties. It is the intent of this Governing Document to assure to the extent possible that no taxable property bear an economic burden that is greater than that associated with the Maximum Debt Mill Levy in amount and that no taxable property bear an economic burden that is greater than that associated with the Maximum Debt Mill Levy Imposition Term in duration even under bankruptcy or other unusual

situations. Generally, the cost of Public Improvements that cannot be funded within these parameters are not costs to be paid by the District.
